

your future IS IN YOUR HANDS

Become a certified Auto Glass Technician

Are you looking for advancement or job security? Then enroll today in the Auto Glass Technician class, sponsored by the LCJVS Adult Workforce Development Program. This 40-hour class will prepare you to successfully become a National Glass Association (NGA) certified Auto Glass Technician.

Technicians install and repair glass on automobiles, trucks, buses and more. Through this hands-on class, you will learn how to:

- Use the latest tools, supplies and techniques with real installations
- Recognize the different types of adhesives and sealants and practice using them
- Understand the NAGS numbering system and how to use it
- Cut and finish laminated glass
- Develop safe work habits

Who should attend?

- Auto glass technicians/installers or those wanting to work in the field (no experience needed)
- Collision repair technicians
- Claims adjusters
- Vehicle service dealers
- Product and service vendors

What does the course include?

- 40 hours of professional instruction and course material
- NGA certification exam (within one year)
- NGA Auto Glass Technician Reference Manual
- NGA Employee Safety Guide
- Auto Glass Technical Institute (AGTI) handbag
- 3 AGTI patches
- AGTI certificate
- Free product samples
- Discounts from various suppliers
